EcoSys 365

Web App EcoSystem with CRM & Stripe solutions

With our expertise, we help you optimize your digital presence, streamline processes, and sustainably strengthen customer and donor relationships — so your organization can be even more successful in the digital age.

Getting started

Digital payments easier than ever!

With EcoSys365, online payments become simple, secure, and efficient.
We seamlessly integrate modern payment solutions into your website or app—from one-time payments to subscriptions and automated processes. This allows you to offer your customers a convenient payment experience while keeping full control over your revenue at all times.

In addition, we support all modern **CRM and CMS systems** and connect them directly to your payment solutions, enabling customer data, payments, and processes to be managed centrally, transparently, and efficiently.

EcoSys 365

Market overview

WEB & APP

EcoSys365 specializes in the professional development of websites and apps, delivering tailor-made digital solutions that impress through both functionality and visual appeal.

ONLINE PAYMENT (STRIPE)

Stripe is one of the world's leading payment gateways and supports over 125 payment methods. Companies of all sizes rely on Stripe for secure and fast online payments.

CRM-SOLUTIONS

We develop reliable integrations between Stripe & popular CRM solutions such as HubSpot, Salesforce, Monday.com, or CiviCRM. Payments, customer data, and project information are automatically synchronized.

EcoSys 365

Security first

Security is at the core of our work

We consistently rely on modern technologies and ensure that all systems, frameworks, and platforms we use are always operated with the latest updates and security standards. Protecting sensitive data, maintaining stable operations, and ensuring maximum reliability are our top priorities.

For this reason, we deliberately work with Stripe for online payments—one of the world's most secure payment gateways, offering features such as 3D Secure, strong encryption, and advanced fraud detection. The result is sustainable, secure, and trustworthy digital solutions—an essential foundation for the trust of members, donors, and partners, especially for organizations, associations, and nonprofits.

User-Interface & Design

A well-designed user interface and modern design are crucial for making a strong first impression. EcoSys365 has extensive expertise in usability, user experience, and modern web technologies, and develops websites that build trust, are easy to use, and increase conversion rates.

EcoSys 365

Central integration of all systems

EcoSys365 seamlessly connects all relevant systems.

Whether it's your website, app, online payments, CRM, marketing tools, or external applications — all data and processes work together seamlessly. This results in efficient workflows, fewer integration issues, and a holistic view of your digital ecosystem.

Future trends

Digital transformation continues to advance — and online payments are increasingly becoming the standard.
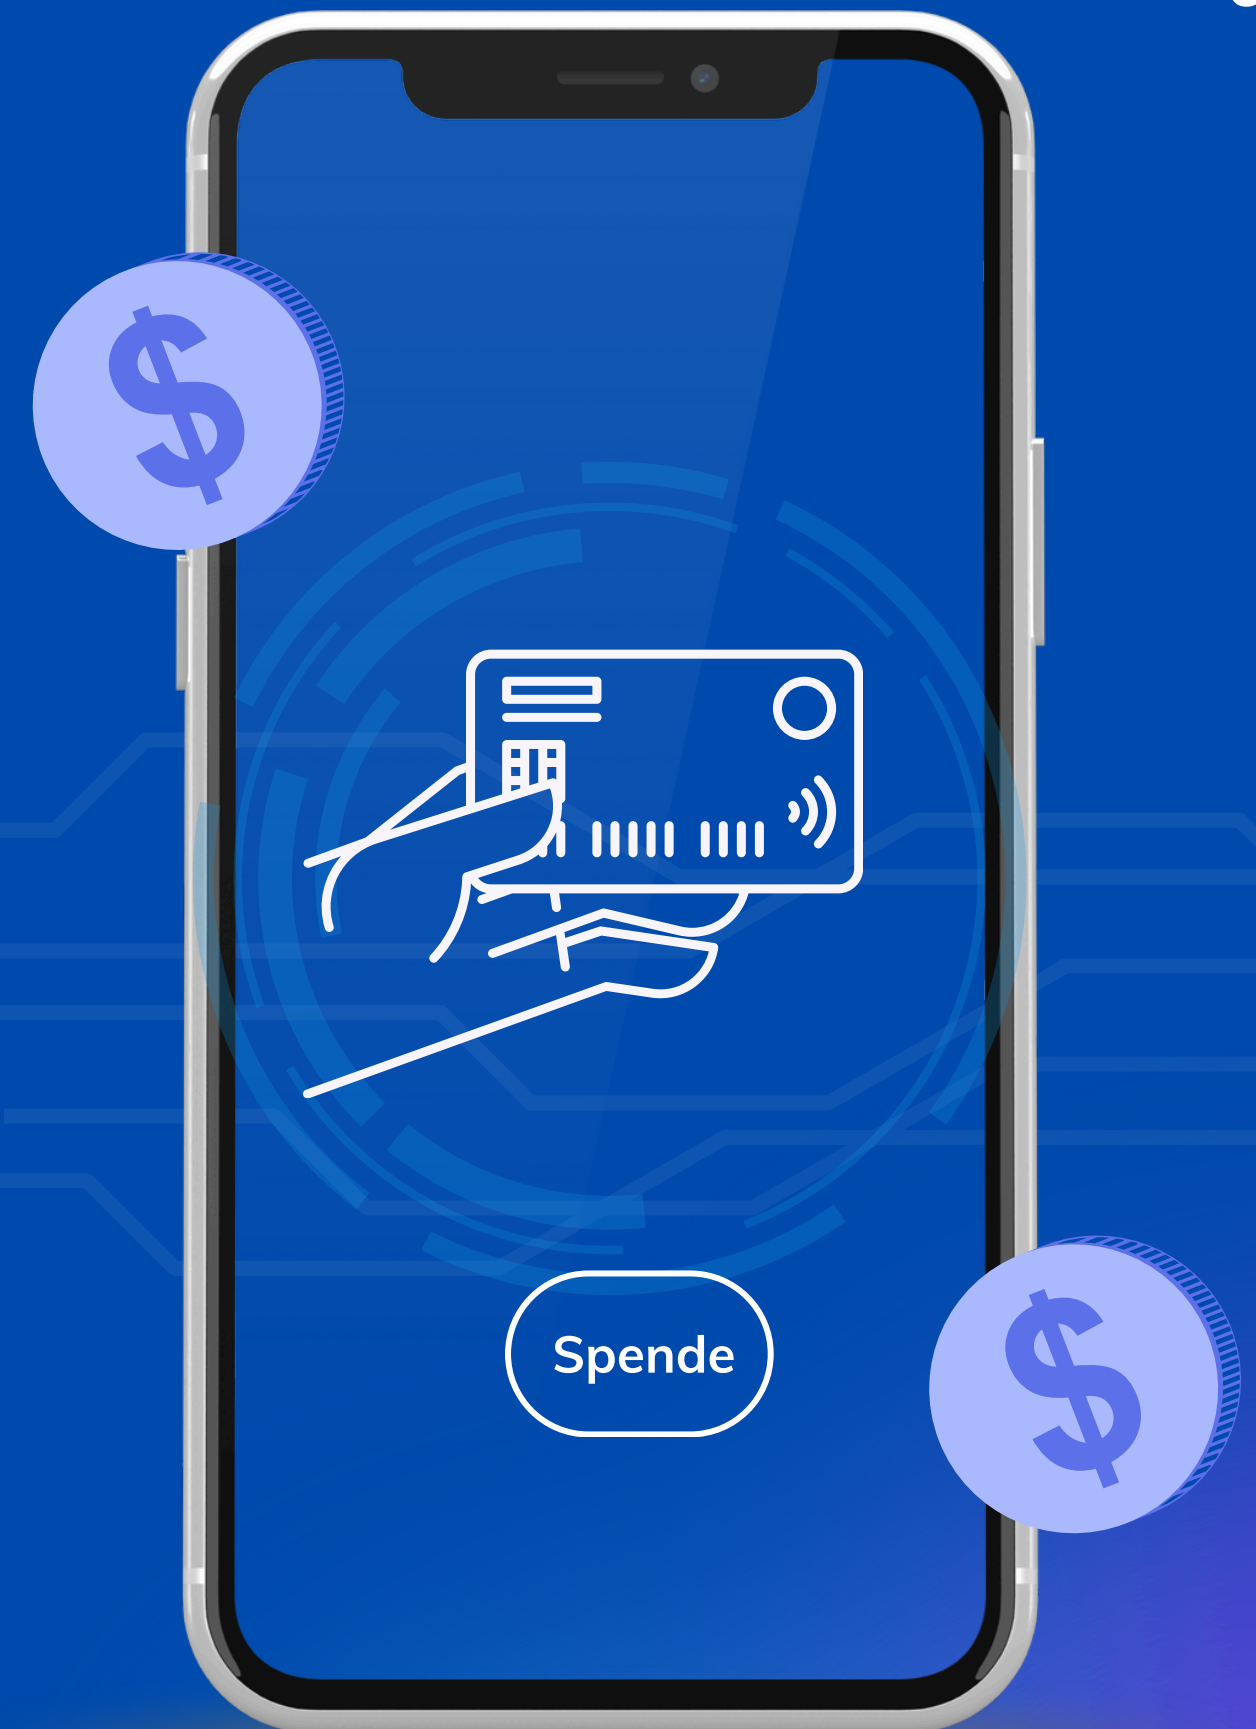

Especially for associations and nonprofit organizations, a stable, secure, and easy-to-use online payment system is essential to enable donations, membership fees, and contributions anytime and from anywhere. Those who invest in digital solutions today secure reach, efficiency, and sustainable support for the future.

Why EcoSys365?

With over **15 years of experience** in web systems and digital solutions — particularly in the **nonprofit and association sector** — we understand the specific requirements, challenges, and constraints our clients face. We know that resources are often limited, especially time and budget, which is why we focus on **tailored, lean, and affordable solutions** that align with actual needs and deliberately avoid unnecessary complexity.

We don't just provide technical support; we also offer **strategic guidance**, optimize existing processes in a **cost-efficient** way, and always keep the **nonprofit mindset** and the long-term value for members and donors at the center of our work.

Service agreement

EcoSys365 is ideal for associations and nonprofits and operates with a transparent support & maintenance agreement — without hidden costs, upfront fees, or long-term commitments.

The agreement can be canceled on a monthly basis and is tailored individually — depending on the systems and services required, such as websites, apps, online donation solutions, or CRM integrations.

This way, you only pay for what you actually need.
